We know this, because we have lost hours and hours of time looking for the game we wanted, and we never found. It is time to stop this. We have created this website because of this issue, and we are ready to fight the good battle against people who are trying to take advantage of people. Our website has a list of website that we believe to be the website that is trying to trick you. We can only list the websites in here, because they are not allowed to hide their tracks, or they would end up in jail. This website was created to provide you with all the information about the hidden agenda behind these websites and games. By that we do not mean that the companies that host the games and websites are bad people. That would be a mistake. But, their intentions and reason for their actions may be questionable at best, and

malicious at worst. The main reason why we are taking a position against these websites, is because the gaming industry is facing great loss by not being aware of this, and they could be losing a lot of money. There are several reasons why the websites are thinking they are doing the right thing, and we will try to explain them as well. Some of the explanations are obvious, so no need to elaborate, but some of them are not so obvious, and that is because the illegal activities of the websites are so difficult to track and prove. Do not allow yourself to be tricked, and do not give in. We know that we are fighting in a battle that many might consider to be impossible, but we are ready to fight for your sake, and for the gaming industry, and all the companies that are doing it for good reasons. Today, we have a new update for our game, and it is the latest version of the massive update we released in October.
